

THERMAL-GRIP® TUBESEAL™

January 9, 2024

TRUFAST announces a new insulation fastener for self-sealing of the air barrier/WRB underneath

TRUFAST, a brand of ALTENLOH, BRINCK & CO. US, INC., which is the leading US manufacturer of highly engineered attachment solutions for use in residential and commercial building material industries under the brand names of SPAX® and TRUFAST®, is pleased to announce the release of the Thermal-Grip TubeSeal™ fastener.

The Thermal-Grip TubeSeal fastener is designed for insulation attachment over an air barrier or WRB. It is available in lengths for insulation nominal thickness from 1" to 4", in half inch increments. In addition to securely attaching insulation, it helps seal blind fastener penetrations of a WRB and/or air barrier. Its UV-resistant, semi-rigid tube construction is suitable for all weather climates. It is available pre-assembled with various TRUFAST Grip-Deck screws including SDS (self-drilling) or HiLo thread with various washers for insulation or lath.
